How to Measure:

- A - Neck Girth - Measured at the base along the collar line.
- B - From the collar line to the tip of the shoulder.
- C - Shoulder tip width - measured across the back
- D - Chest Girth - measured at the widest.
- E - Biceps Girth - measured at the widest.
- F - From the collar line to the waist - measured from behind.
- G - From the waist to the ground.
- H - From the collar line to the ground - measured from the front.

- I - From the collar line to the ground - measured from behind.
- J - Sleeve length - from the counter base of the neck back, around the elbow to below the wrist bone.
- K - From the shoulder tip to the waist - measured across the back.
- L - Waist girth - measured at the widest.
- M - Wrist Girth.
- N - Hip Girth - measured over the largest part of the subject's bottom.

Tip for Best Measuring Results:

- Your clothing is always custom-tailored to your individual measurements.
- You are welcome to provide additional comments and requests along with your measurements submissions (example - loose-fitting).
- When measuring, please put on the type of clothing usually worn under the garments orders.
- NOTE: Do NOT measure the garments yourself!
- NOTE: Do NOT take your measurements by yourself!
- You may also consider having your measurements taken but a professional tailor locally. However, do ask the professional to follow the Liturgix Measurements Chart instructions.
- For your convenience, all measurements are kept on file.
